

Product Information

Product Colour	Black (RAL 9011)/ White (RAL 9016)
SKU	EVO-WS12-UBB / EVO-WS12-UBW
GTIN	5056455500805 / 5056455500812
MPN	500805 / 500812
EAN	697079020 041 3 / 697079020 042 1

Product Overview

Evoson™ has designed a series of U-brackets for mounting the Evoson PEAKSOUND™ WS range of professional cabinet loudspeakers. The bracket is constructed from solid steel and can be affixed to a ceiling, wall, or other surface using the fixing points on the length of the bracket. Once the speaker is mounted it can then be tilted into the desired position, enabling flexible and accurate sound dispersion.

A corresponding bracket is available for each speaker in the range in either black or white (except for WS6 and WS8 where the brackets come included with the cabinet speaker assembly, and the WS212B). The bracket includes all necessary components for safe and reliable mounting in a variety of indoor applications. Wall-fixings not included.

Technical Specifications

Product Features

Dimensions (W x H x D)	355 mm x 70 mm x 612 mm
Weight	
Material	Steel
Compatibility	WS12 Cabinet Loudspeaker
